

# THE BRITISH COLUMBIAN.

No. 72, Vol. 3.

NEW WESTMINSTER, WEDNESDAY, OCTOBER 21, 1863.

Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

**The British Columbian.**  
NEW WESTMINSTER, WEDNESDAY, OCT. 21, 1863.  
THE ROYAL ENGINEERS.

The disbanding of this corps is an event in the history of this Colony too important to pass over in silence. Closely identified with the rise and progress of the Colony, and, although a military body, yet from the civil services performed by them, intimately associated with the people, we have come to look upon them as in every respect of ourselves. While we have admired the fortitude and ability with which they have combatted the numerous difficulties incident to a new and rough country we have frequently felt that a great injustice has been done that fine body of men in employing them at a description of work to which they are infinitely superior, and for which they were assuredly never intended.

Yet, notwithstanding all the difficulties and disadvantages under which the Royal Engineers have labored, and despite the palpable desire on the part of the Governor to hinder their usefulness and depreciate their labors, their name stands identified with nearly all the great and important public works in the Colony, either as engineers, mechanics or operatives. They have made their mark, and it will be seen by future generations, whether in throwing a pathway across the foaming torrent or in cutting a highway through the towering mountain of everlasting rock.

In a social point of view the Royal Engineers have succeeded in gaining the goodwill and esteem of the community generally. From the commanding officer downward they have ever been ready to assist in the promotion of any scheme having for its object either the amelioration of the sufferings of their fellow men, the promotion of religion and morality, or the general good of the Colony. In affording amusement, too, they have been most liberal and efficient. To the R. E. Band this community stand deeply indebted for many an agreeable evening.

There is one happy feature connected with the breaking up of this favorite corps. The greater part of the men will remain in the country. We understand that probably less than 20 will return to England, exclusive of the officers. To those who have decided to make this Colony their home we would tender a most hearty welcome and our best wishes for their happiness and success, while to those who may return to the Mother Country, some doubtless to come back again, we would say we part with regret, but we wish you a *bon voyage* and a happy re-union with friends in your dear fatherland.

EXTRAORDINARY FRENCH TELEGRAPHIC INVENTION.—The Abbe Caselli's recent invention, the pan-telegraph, is described as one of the greatest scientific wonders of the present day. A despatch written at Paris is reproduced at Marseilles without the assistance of any clerk, with the most rigorous fidelity, as is also a portrait sketch or drawing of any kind. The Empress has lately had her likeness telegraphed to some friends in the provinces, and recently the inventor telegraphed a painting of a full-blown rose from the Observatory to the bureau of the telegraphic administration. The petals were of a beautiful pink color, and the leaves of an equally good green—in short, were exactly like the tints of the original. Rossini also telegraphed to Marseilles by this apparatus a melody which he improvised in honor of the inventor.

SERVING A WRIT.—A ludicrous incident occurred when Carter, the lion-king, as he was called, was exhibiting with Ducrow at Astley's. A manager with whom Carter had made and broken an engagement issued a writ against him. The bailiffs came to the stage-door and asked for Carter. "Show the gentlemen up," said Ducrow; and when they reached the stage there sat Carter composedly in the great cage, with an enormous lion on each side of him. "There's Mr. Carter, waiting for you, gentlemen," said Ducrow, "go in and take him. Carter, my boy, open the door." Carter proceeded to obey, at the same time eliciting, by a private signal, a tremendous roar from his companions. The bailiffs staggered back in terror, rolled over each other as they rushed down stairs and nearly fainted before they reached the street.

A DILEMMA CONCERNING REBEL NOTES.—Judge Wylie, sitting in the District Court at Washington, as a Court of Admiralty, is at a loss to know what to do with a large amount of so-called Confederate money, included in property brought before him for condemnation. He says that to condemn it would be to recognize it as property; to sell it would be to give it circulation; and to destroy it would be to give aid and comfort to the enemy by relieving him of his liabilities.

NEW WESTMINSTER, WEDNESDAY, OCT. 21, 1863.  
THE PROSPECTS OF THIS TOWN AND THE FRASER RIVER ROUTE.

Whatever doubts may have existed in the minds of some with respect to New Westminster as the commercial capital and the Fraser River route as the great arterial highway of the Colony, these doubts are being rapidly dispelled. None but those who are wilfully blind upon the subject have the slightest misgiving now. It is true we have had a long and a hard struggle. Victoria traders, Hudson Bay Co. influence, and even the influence of our own treacherous and unnatural Government, have all been thrown into the scale against us. From the first choice of this as the site for the capital, by the Chief Commissioner, down to the present writing, every conceivable obstacle has been thrown in the way of our onward march. And yet, in spite of all, onward, steadily and surely, if slowly, has been our progress.

An enterprising and persevering people have set their faces unflinchingly against all opposing influences; and, with an abiding faith in the advantages and ultimate destiny of this route, they have now the satisfaction of seeing the clouds breaking and giving way to a clear sky. One by one have rival routes been conceived by greedy Victoria monopolists and puffed into a phantom existence by "copperhead" journals, and, one by one, the bubbles have exploded. While protesting their belief in the inaccessibility of New Westminster as a sea-port they have most effectually given the lie to their protestations in their over zeal to discover a route which would divide the trade with her.

And now, that every effort which greed and jealousy could devise has proved utterly abortive—when they see that they can neither control nor circumvent nature, when the conviction of the superiority and ultimate destiny of this Colony and of this town can no longer be denied or concealed, they seek, by a desperate—may we not say diabolical—effort, to tack themselves on to us so as to share our fortunes. Victoria begins to heave and tremble. Union she needs, yet union she dreads.

If we turn to the prospects of this Colony, whether in respect to her commerce, her mines or her agriculture, all is bright and hopeful. Based upon a solid foundation, with a Government of our own and with a prospect of an early extension of our political privileges, with an almost complete system of roads to the interior, nothing is needed but a thrifty population and a little more capital in order to enable British Columbia to progress at a ratio commensurate with the expectations of the most sanguine. One thing needs especially to be done. We must have direct intercourse with the outside world. Our immigration and our commerce must not be drawn through Victoria. The former they cram with the most gross misrepresentations respecting this town and Colony, and the latter they subject to a tax of over thirty per cent. One of the very first duties of the new Government will unquestionably be to adopt such measures as will secure direct steam communication with San Francisco, and ultimately induce a British line to run between this port and Panama. And what would the effect of such an arrangement be upon this town? It would be, in a word, to make it all that the capital of a great and wealthy Colony ought to be.

## Municipal Council.

The Council met on Monday evening last at the usual hour, the President in the chair. Present, Councillors, Webster, Cooper, Clarkson, Armstrong, Brown, Claudet and Manson.

Upon motion of Mr. Cooper, seconded by Mr. Armstrong, the tenders for the construction of Richard street were read, and after some discussion they were laid on the table for future consideration.

Upon motion of Mr. Cooper, seconded by Mr. Brown, Mr. Scott's tender for the continuation of the levee to Douglas street, for \$320 per chain, was accepted.

Several accounts were read by the Clerk and ordered to be paid.

Moved by Mr. Clarkson, seconded by Mr. Armstrong, that the Clerk be instructed to communicate with His Excellency and request that in the event of the Royal Engineers not being allowed to complete the Levee from the R. E. Camp to this city, His Excellency will grant the necessary funds and authorize the Council to receive tenders for the same.—Carried.

The Council then went into Committee of the Whole upon the Fire By-Law which was finally submitted to a committee of three, to be reported at another meeting.

The Council then adjourned.

### TO THE ELECTORS

OF

### DOUGLAS AND LILLOOET!

GENTLEMEN:—At the request of several friends of influence and position in your Towns and District, I beg to offer myself as a candidate for your selection to represent you in the forthcoming Legislative Council.

In accordance with the wishes of these gentlemen, and not of my own accord, I come forward on the following grounds:—

The first Council will be a most important one for the future of this Colony and its several Districts, and will require the constant and unwearied attendance of New Westminster of those Members who desire to influence its proceedings. My influence, if you do me the honor to select me, shall be exerted to obtain improvements in the following matters:—

The system of water-carriage to your Towns; Your Roads; To improve your Towns by means of Public Works; To open up and develop your Route to the Upper Country;

To remove vexatious Imposts and Taxes; To obtain for your District a more powerful voice in the Councils of British Columbia.

These are my opinions on some of the principal of your local wants. On more general matters I can only say I consider that this Colony should be independent, commercially and politically, of the neighboring Colony; and that I will pledge myself as your representative to spare neither time nor pains in procuring that independence.

I have the honor to be, Gentlemen, Your obedient servant,

MACNAUGHTON JONES, A. M., M. D.

## Arrivals from Cariboo. OVER \$200,000 IN TREASURE

The steamer *Reliance* arrived from Yale and Harrison River last night, bringing 125 passengers, among whom we observed Rev. E. Evans, D. D., Mr. John A. Cameron, of the celebrated Cameron claim, and Mr. Geo. Landvoigt, of Hope. Mr. Cameron brings down 3 animals laden with treasure, guarded by an escort of 19 persons. The amount of his gold is nearly 750 lbs. weight, or \$150,000. Mr. C. has been on the Pacific coast about 11 years, and has been something over 1 year in this Colony. During the greater part of this season he has personally superintended the working of the claim which has so abundantly rewarded his labors, and consequently feels the need of relaxation, from the cares of mining life. He is about to proceed to his native country, Scotland, where, with the handsome fortune he has acquired in British Columbia, he may spend the remainder of his days in affluence and comfort, still, however, retaining an interest in his claim. He informs us that the claim continues to yield most satisfactorily, \$50,000 having been taken out during the last two weeks previous to his leaving; and he feels confident that its productiveness will be of long continuance. On leaving the claim he was escorted by a procession of about 200 persons to Upper Town, about 100 of whom accompanied him a distance of 4 or 5 miles on his way, when they returned, giving three hearty cheers for the fortunate miner. The procession is said by those who were present to have been a magnificent affair. We understand Mr. C. intends remaining in town a few days in order to have his gold assayed at the Government Assay Office. About \$50,000 came down by other private hands, and \$3,000 in Dietz & Nelson's Express. No news of importance.

## THE WAR.

The mail steamer *Brother Jonathan* arrived at Esquimalt on the 16th inst., bringing later Eastern news which, however, is more voluminous than important. The news from the seat of war is up to the 5th instant. Chattanooga still appears to be the chief point of interest, where Rosecrans is besieged and seems to occupy any thing but an enviable position. He is completely surrounded by the Confederates and unless heavily reinforced, which under present circumstances may not be easily accomplished, must eventually surrender. The Confederate forces have gained possession of Lookout Mountain and the railway in his rear; and having crossed the Tennessee, they have succeeded in intercepting the communication with Gen. Burnside. Reinforcements have been sent from Meade and Grant but owing to the distance some time must elapse ere they will be able to render him material assistance. The news from Charleston is unimportant. The Federals seem to be busy making preparations for repelling the bombardment of the city. They have made considerable changes in Battery Wagner, having thrown up formidable embankments facing James Island, and are preparing to mount their guns. They experience considerable annoyance from the Confederate batteries. The battery which is designed to throw Greek fire is nearly completed. Experiments show that the fire may be safely and effectively used, and that Charleston is within easy range. The guns now in position are in such numbers as will ensure the destruction of the city when they open, which will not take place until other arrangements are completed and the navy ready to co-operate with the army. The losses at the battle of Chickamauga are estimated at, Federals, 13,800; Confederates, 20,000, according to Northern reports. A plot for burning all government transports on the Western rivers had been discovered. The *Tribune's* dispatch from Washington says that a gentleman who is accustomed to watch the current of European politics, is in receipt of private correspondence from well informed sources, which already predicts that a great general war is growing out of the Polish question, and will convulse Europe by the next spring. It is believed at St. Petersburg that Russia will then have 1,000,000 under arms, and will be prepared for any emergency. It is conjectured here that the true explanation of the appearance of Russian vessels of-war in our waters is to secure them from being blockaded in port, as was done during the Crimean war.

EUROPEAN.—The news from Europe is not of much importance. The construction of rams and vessels of war upon the Mersey the Clyde has been stopped by the British Government. A letter from Richmond, in a Confederate organ, speaks of the probable recall of the representatives of the South from England, on account of the attitude of the British Government. The *Harold*, advertising to the rumored probable recall of Mason from London, says it is in consequence of the systematic discourtesy with which he has been treated by Earl Russell. The withdrawal (from England) of Commissioner Mason (rebel) is confirmed. The London Star says that if the Confederates are offered with England for trying to keep in the right, it is sorry for it, but the loss is their own while the relief to the British Government will be great, and the nation will have nothing to repent. Mr. Mason had sent Earl Russell a notification on Monday that he had been instructed by the Richmond Government to withdraw from England. Mason proceeds to Paris. The London Star learns that it is the intention of the French Government to speedily

recognise the Confederate States, and instances various acts and demonstrations to justify the belief. The Paris correspondent of the *London Morning Post* asserts that the Washington Government has assisted Jaurer with arms and ammunition. The *Great Eastern* will be withdrawn from American trips at present. The Russian reply to the English note is published. It expresses ardent desire to restore tranquility in Poland.

CANADA.—Lord Lyons, accompanied by all the foreign Ambassadors at Washington, and Secretary Seward, are on a tour in Canada. The steamer *Ploughboy* came near being wrecked on Lake Huron. She lost four of her crew. The str. *Zimmerman* was burnt at Niagara and two men perished with her.

Marietta Zanfretta will positively attempt, during the summer, to cross Niagara on a tight rope, and she entertains no doubt of her ability to succeed. This lady is a Parisian by birth.

HONDURAS, C. A.—It is stated that the troops of Honduras were defeated by a force of guerrillas, and surrendered, after which their general and chief officers were put to death. After the battle the Guatemala army committed terrible outrages upon the cities, and the Indians being let loose commenced an indiscriminate slaughter. A British man-of-war had gone to Truxillo.

## LILLOOET ASSIZES.

### THE MURDER OF KLEAG.

The trial of William Armitage, who was charged with the murder of Thomas Kleag, (then in the employment of Messrs. E. T. Dodge & Co., of Port Douglas,) near Bridge Creek on the 16th day of August last, took place at Lillooet on the 15th inst. before Judge Begbie. The particulars connected with this cold blooded murder are fresh in the recollection of our readers, and were fully reported at the time in the columns of this journal.

The principal evidence against him was his own confession. He was found guilty, and sentence of death passed on him in the usual way on a day hereafter to be named. The wretched convict appeared to be deeply sensible of his position, and made an earnest appeal to the Court for mercy.

It will be remembered that his accomplice in this murder was found drowned at the Forks of the Thompson in endeavoring to swim the river.

GOLD ON THE ISLAND.—The *Victoria* papers announce the discovery of gold in paying quantities on Gold Stream, 10 or 15 miles from Victoria. If the report be correct we shall no doubt shortly hear of the "yellow fever" among the inhabitants of that city, since they must hereafter look to their own island for the pecuniary support with which we have hitherto been supplying them.

PASSENGERS AND GOLD.—The str. *Dutchman* and *Hope* brought down 75 passengers on Monday, and the *Reliance* 125 last night. Dietz & Nelson's EXPRESS brought down \$20,000 on Monday and \$3,000 last night. About \$200,000 also came down in private hands by the *Reliance*. This makes a total of 200 passengers and \$223,000 in treasure during the last 2 days.

THE STEAMER "ENTERPRISE."—This beautiful steamer, Capt. Mouat, arrived here on Monday evening, the damage she lately sustained having been repaired; and we trust her regular trips between this city and Victoria will long remain uninterrupted. She left for Victoria, yesterday morning at 5 o'clock, with a number of passengers.

ARRIVAL OF A PRESBYTERIAN CLERGYMAN.—The Rev. James Munro, M. A., Presbyterian minister, arrived in Victoria by the *Brother Jonathan*.

EXTRAORDINARY ONIONS.—We were shown a fine specimen of onions at Mr. John Murray's store yesterday. There were eight which together weighed 10 lbs., and one of which weighed 1 lb. 10 oz! They were grown on Mr. Gunn's ranch, near Derby. Who says we can't raise onions in British Columbia!

REV. DR. EVANS, arrived from Cariboo last evening, and will proceed to Victoria to-day. The rev. gentleman looks well although his health for the last few weeks has not been very good.

THE LATE TREASURER OF BRITISH COLUMBIA.—A letter received by Capt. W. A. Mouat, yesterday, states that Major Gossett, late Treasurer of British Columbia, has been promoted to a lieut.-colonelcy in the Royal Engineers and assigned to duty as a superintendent on the Plymouth fortifications. The major has resigned his late position in British Columbia, and we think has given up all hope of ever becoming governor of either Colony.—*Chronicle*.

H. M. S. "SUTLEY" arrived at San Francisco on the 1st and was to leave on the 13th inst. The *Echo du Pacifique* says: "On her arrival in San Francisco on Thursday last, the English steam frigate *Sutley*, bearing the flag of Admiral Kingcome, committed a mistake. The *Sutley*, on entering the port, was proceeding to anchor in the direction north of Saucelito. As she arrived at the anchorage Fort Alcazar, wishing to let her understand that she had forgotten something, fired a blank shot at her. Not knowing the new Port Regulations, the *Sutley* took no notice of the first warning. A real shot was then fired ahead, the ball ricocheting and passing under her bowsprit. This was understood. Immediately a salute of 21 guns was fired by the frigate and returned by the Fort.

FRANCE AND MEXICO.—One of the semi-official journals, *La France*, states that a civil service in every department is to be immediately organized in Mexico. French Clerks are going out to work the finances, post-offices, custom-houses, electric telegraph, and railways. A railway is to be made not only from Vera Cruz to the city of Mexico, but from that capital to the Pacific Ocean.

PRUDENT.—When you "pop the question" to a lady, do it with a kind of laugh, as if you were joking. If she accepts you, very well; if she does not, you can say "you were only in fun."

## THE DOUGLAS-LILLOOET ELECTION.

A meeting was convened here this evening at 8 o'clock, pursuant to public notice, preparatory to the election of a representative for the Douglas and Lillooet districts in the Legislative Council of British Columbia.

Mr. James L. Daly was called to the chair, and Mr. Robert Jesse acted as Secretary.

The Chairman, having explained the object of the meeting, viz., to consider a proper franchise to regulate the election, as also to nominate a candidate to represent our interests, proceeded to say he should be happy to hear whatever propositions any gentleman may bring forward, and hoped any argument or difference of opinion that may arise would be conducted in a friendly spirit, so as to arrive at some definite decision.

1st, Proposed by Mr. J. Hughes and seconded by Mr. W. Branagan. "That, whereas a communication having been received from the Colonial Secretary by our Resident Magistrate, asking us to select a candidate to represent us in the Legislative Council of British Columbia, and it resolved by this meeting, that that result can only be accomplished through the medium of a poll."

2nd, Proposed by Mr. W. R. Gibson and seconded by Mr. P. Smith.—"That it is the opinion of this meeting that a liberal franchise shall be adopted to rule the present election, and be it resolved that such franchise shall be: For a candidate—That he be a British subject, and be the owner of real estate in the Colony to the extent of £500. For a voter—That he shall be a British subject, either resident in the district 12 months or the owner of real estate to the value of Twenty Pounds, or a leaseholder at the rent of Twelve Pounds a year, with 3 months occupation, pre-emption of land to be the same as ownership."

3rd, Proposed by Mr. T. Humphreys and seconded by Mr. Tesch.—That a committee be formed to wait on Mr. Gaggin to bring to his notice the resolutions passed, and such committee to consist of Messrs. P. Smith, Jas. L. Daly, R. Leispett, R. Jesse and W. McDonald.

4th, Proposed by Mr. W. McDonald and seconded by Mr. P. Smith.—That Mr. Henry Holbrook be our candidate, and that he now come forward and express his views.

Mr. Holbrook spoke as follows:

Mr. Holbrook being called upon, presented himself to the meeting, and after thanking the inhabitants of Port Douglas for the honor that was done him in proposing him as a candidate to represent them in the Legislative Council of British Columbia, he stated that if elected he should do all he could to further the interests of the district by bringing forward the measures that might be advocated by his constituents, and he hoped the time might arrive when Douglas would be made the grand terminus of the road from Canada to the Pacific, he advocated a grant being made to improve the Rapids at Harrison River at once, so as to allow steamers to come to Douglas in winter as well as summer, the granting Municipal Institutions to Douglas and Lillooet, the formation of a Road Board, composed of merchants, irrespective of nationality, presided over by their esteemed resident magistrate, to manage the affairs of the road, and that money collected for tolls should be expended in the district, the reduction of the rates being left in their hands or made according to their wishes, when the amount exceeded any interest that might be due for money lent on such roads, and exceeded the amount required for expenditure; he should recommend that contracts be given after proper competition to responsible parties for the repairing of the roads, instead of employing men by the day, as at present; he stated he should strongly oppose union on any terms with Vancouver Island, he would be in favor of remodeling the tariff so as to allow machinery and raw materials to come in duty free, giving free grants of land in certain parts of the Colony to emigrants from Great Britain, establishment of a Light-Ship at the Sand Heads; good postal arrangements for the interior, and the granting of a subsidy for a mail service to British Columbia; the settlement of Indian claims and reserves, and establishment of schools on the latter; also the surveying of lands in the district near Pemberton, and he would favor prospecting the country from Rock Creek to Cariboo; he should each year come and lay a statement of what he had done before his constituents, so as to have their support to carry out his measures and receive instructions for the future; and, in fact, if he had the honor to be elected, would endeavor to make this district as prosperous, if not the most prosperous, in the Colony, which it was entitled to be from its merchant's capital, which he calculated to be a million of dollars in their hands, and the energy they had always displayed in every movement to advance the Colony and improve its commerce and roads, and he should be proud to represent such men and their opinions.

Major Downie, who was present at the meeting, afterwards made a very good speech. A vote of thanks having been given to the chairman, the meeting then separated.

FRIDAY, 16TH OCTOBER, 1863.

Pursuant to notice from J. B. Gaggin, Esq., our resident Magistrate, a meeting was convened at 11 A. M. this day, for the purpose of electing a candidate for this district to represent us in the Legislative Council. Mr. Gaggin having read the notice he received from the Colonial Secretary, requested them to elect a chairman, and forward to him the name or names of the parties chosen.

Mr. Jas. L. Daly being called to the chair, it was proposed and seconded that the resolutions passed last evening be confirmed by this meeting—carried.

Mr. W. McDonald proposed, and Mr. P. Smith seconded,—"That Mr. Henry Holbrook be a fit and proper person to represent us in the Legislative Council." No other candidate appearing, a show of hands was taken, which was declared to be unanimous, and Mr. Henry Holbrook was therefore declared to be duly elected for Douglas.

Mr. Holbrook returned thanks. A communication with the minutes of the meeting was forwarded to J. B. Gaggin, Esq., for transmission to the Colonial Secretary.

A dinner was given in the evening by the

newly elected member; covers were laid for thirty, amongst whom we noticed J. B. Gaggin, Esq., J. P. Messrs. C. Wright, P. Smith, E. T. Dodge, J. L. Daly, Tesch, Nelson, Dr. Sylvester, R. White, Capt. Nunn, T. Cooper, R. Leispett, W. Gibson, R. Jesse and H. Windsor. The following toasts were proposed during the evening:

1. The Queen.
2. The Prince and Princess of Wales, and the rest of the Royal Family.
3. The Governor of the Colony, Sir James Douglas.
4. The President of the United States.
5. The Officials of the Colony and J. B. Gaggin, Esq., our Resident Magistrate.
6. The Army and Navy.
7. The newly elected member, Mr. Holbrook.
8. The trade and commerce of British Columbia.
9. Mining interest of British Columbia.
10. New Westminster, and the representative of that District, Mr. Homer.

Many other local toasts were then proposed, and they did not separate till an early hour the following morning.

Monday next has been fixed for the election at Port Pemberton.

DOUGLAS, B. C., 14th Oct., 1863.

Sir,—In accordance with your instructions an election was held to select a member for the purpose of representing our interests in the Legislative Council of British Columbia. I therefore beg to transmit to you the accompanying minute of our proceedings, which was adopted.

Mr. J. L. Daly having been called to the chair, it was proposed by Mr. Wm. McDonald, and seconded by Mr. Smith; "That Mr. Henry Holbrook be a fit and proper person to represent us in the Legislative Council of British Columbia." Having submitted same to the meeting, a show of hands was taken, and the resolution unanimously adopted.

No other candidate having been nominated, I therefore now declare him duly elected by us, and have to request you will transmit the name of Mr. Henry Holbrook to His Excellency the Governor, in conformity with the circular from W. A. Young, Esq., the Colonial Secretary of British Columbia.

Your obedient servant,  
(Signed,) JAMES L. DALY,  
Chairman and Returning Officer.

**Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance when ever this medicament is applied: round flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflammation.**

These distressing and weakening diseases may with certainty be cured by the sufferer themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

## Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the most circumstances, if the use of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm & other Skin Diseases.**

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

**Sore Throats, Diphtheria, Quinsey, Mumps & all other Derangements of the Throat.**

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

**Serofula or King's Evil and Swelling of the Glands.**

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them most suitable than any other remedy for all complaints of a serofulous nature. As the blood is impure the liver, stomach and bowels being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Gout.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Glandular Swellings.	Scurvy.
Coco-bay.	Lumbago.	Sore-heads.
Chiego-foot.	Piles.	Tumors.
Corns (soft).	Rheumatism.	Ulcers.
Cancers.		Wounds.
Chilblains.		Yaws.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, OCT. 27, 1863.

### Poetry.

In Victoria dwells a lean lank man,  
Full six feet high, or more, sir;  
You need not wonder who I mean  
When I shall tell you that I've seen  
Him making speeches from morn till e'en,  
Full twenty fathom long, sir.

His name's "Chameleon" or something else,  
Long nose, long fir, and twirls a cane, sir;  
He talks all day, and dreams at night,  
About a duck-pond and free-port,  
And thus he makes the people snort  
At what he has to say, sir.

He is interested in town lots,  
And fears he'll have to pay, sir;  
Except a union can be made  
And thus secure Columbia's trade  
And half the Gov'nor's salary paid,  
And then he'll do right well, sir.

His Grace the Duke, and our Sir James,  
Must be at once applied to, sir;  
The seat of Government then shall be  
Close by the duck-pond, as you see—  
The duck-pond port then shall be free,  
So say Sir James, the Duke and I, sir.

Haste! Haste!! my colleagues, one and all,  
Call in your aids, the Board of Trade, sir;  
The Upper House must take a part—  
I'll write the Duke with all my heart—  
We'll make Columbians pay the smart  
As usual—without their leave, sir.

—Shakespeare, 2nd Edition.  
New Westminster, October 20, 1863.

### Garibaldi.

[From the New York "Independent."]  
"The Milan papers state that Garibaldi has  
become a perfect wreck. His health has given  
way; his wound is constantly breaking out  
afresh, in consequence of the exfoliation of the  
bone; and the neglect into which he has fallen,  
the loss of his popularity, and the death and  
imprisonment of his old friends contribute to de-  
press him still more than the physical injuries  
that have made him a cripple for life."

The best hearts in all the world send out  
their sympathies to the brave man in his decline.  
The sailor, the teacher of mathematics, the candle-  
maker of Staten Island, the Hunter of the Alps,  
the winner of a kingdom for Victor Emanuel  
—what a strange life this red-shirted man's has  
been, and what a name he has planted in the  
world to grow green through coming time?  
Loving Freedom with an ardor which is possible  
only to one who has natural fire in his blood, he  
has won the victories of Italy with a skill and  
genius that rank him among the chiefs of revolution-  
ary war. Equally a master of eloquent ap-  
peal with the pen, what general ever better  
knew the art of writing a proclamation? "In  
recompense," said he to the young men of Italy,  
"for the love you may show your country, I offer  
you hunger, thirst, cold, war, and death; who  
accepts these terms, let him follow me!"  
And so the men who followed him grew like  
their leader—the weak becoming strong, and the  
fearful defiant. He has one of the greatest souls  
of the present generation—great even in misfor-  
tune. He need never strike another blow—his  
career is already full enough of fame. May  
God unveil before his eyes the comforting vision  
of the heavenly glory!

STRANGE AND SIGNIFICANT.—The Daily News  
mentions that the Prince Imperial of France is  
being brought up by an English Protestant gov-  
erness, in spite of the strong Ultramontane ten-  
dencies of the Empress. The governess, who  
was recommended by Queen Victoria, and  
was formerly in the family of the Duke of Ar-  
gyle, has taught her young charge to spend his  
Sundays in English instead of Parisian fashion,  
and he has expressed his determination not to  
allow the people to work on Sundays. The  
Prince is described as exceedingly amiable and  
affectionate, and desirous to see all around him  
happy. In bodily physique he is not very strong.

AN IRON EGG.—In Dresden there is an iron  
egg, the history of which is something like this:  
A young prince sent this iron egg to a lady to  
whom he was betrothed. She received it in her  
hand and looked at it with disdain. In her in-  
dignation that he should send her such a gift, she  
cast it to the earth. When it touched the ground  
a spring, cunningly hidden in the egg, opened,  
and a silver yolk rolled out. She touched a se-  
cret spring in the yolk, and a golden chicken  
was revealed; she touched a spring in the chick-  
en, and a crown was found within; she touched  
a spring in the crown, and within it was a dia-  
mond marriage ring.—There is a moral to the  
story.

HOLLOWAY'S PILLS.—Confidential Advice.—To  
all persons who suffer from bilious headaches,  
disordered stomach, biliousness, or flatulency,  
these Pills are most strongly recommended as  
the safest, best, and quickest mode of obtaining  
ease, without weakening or irritating the nervous  
system. Holloway's Pills are especially useful  
in clearing away any excess of bile, which usu-  
ally produces fever, unless remedial measures be  
adopted without delay. In asthma, bronchitis,  
and congestion of the lungs they may be relied  
upon for removing all danger. And, by purify-  
ing and regulating the circulation, they effectually  
prevent relapses. By rousing the liver to a  
fair secretion of bile, and quickly carrying it  
from the system, these Pills ward off low spirits,  
listlessness, and those distressing feelings  
often called "nervous."

## THE SUFFERER'S BEST FRIEND. HOLLOWAY'S PILLS.

All Disorders affecting the Liver,  
Stomach and Bowels.

These Pills can be confidently recommended as the  
most simple and certain remedy for indigestion, flatu-  
lency, acidity, heartburn, colic, constipation, and all the  
many maladies resulting from disordered stomach or  
bowels. In all diseases it is of primary importance to  
set the stomach right. These Pills are purifiers, alter-  
natives, and strengtheners of the stomach. They may  
be taken under any circumstances. Though powerfully  
tonic, and satisfactorily aperient, they are mild in their  
operation, and beneficial to the whole system.

Weakness and Debility, Nervous  
Irritability.

The wholesale effect exercised by these admirable  
Pills over the blood and fluids generally is like a charm  
in dispelling low spirits, and restoring cheerfulness.  
Their general aperient qualities well fit them for a domes-  
tic medicine, particularly for females of all ages and  
periods of life. They never betray any disagreeable  
irritating qualities; they quickly eject all impurities  
from the system, and regulate every function of the body,  
giving wonderful tone and energy to weak and debili-  
tated persons, while they brace and strengthen the ner-  
vous system in a most extraordinary manner.

To Regain Health, Strength and  
Vigour.

Whenever persons find themselves in that state term-  
ed a "little out of health," and there are so many causes  
at work to shorten life, it is necessary that Hollo-  
way's Pills, the finest purifier of the blood ever known,  
should be at once taken, as they not only rid both solids  
and fluids of all morbid matters, but regulate all disor-  
dered actions, and strengthen the frame in a most ex-  
traordinary manner.

Old Coughs, Colds, and Asthmatical  
Affections.

These Pills, assisted in their action by rubbing Hollo-  
way's Ointment very effectually twice a day upon the  
throat and chest, and keeping those parts covered with  
the preparation, will be found the most effectual reme-  
dy for asthma, coughs, colds, bronchitis, and influenza.  
These remedies tranquilize the hurried breathing,  
soothe the irritated air-tubes, and assist in dislodging  
the phlegm which stops up the air-passages. This  
treatment has proved wonderfully efficient in not only  
curing old settled colds, but asthma of many years  
standing, and even when patients who were in so bad a  
state as not to be able to lie down on their beds lest they be  
choked with phlegm.

Derangement and Distention of the  
Bowels, Flatulency, Diarrhoea  
and Dysentery.

Any symptoms of the above complaints should be im-  
mediately met by appropriate doses of these Pills, ac-  
cording to the printed directions: delay may be fol-  
lowed by disastrous consequences. These Pills are a  
certain remedy for all the ailments of the alimentary  
canal, they secure the thorough digestion of the food,  
and act most kindly on the stomach, liver, bowels and  
kidneys. As a household medicine they are unrivalled,  
and should always be at hand.

Very Important, of Costiveness  
Beware.

Rarely but little notice is taken of costiveness, yet,  
at certain periods, it is a sure sign that danger is near.  
All who are seized with popsey and palsy, have  
previously suffered from costiveness. In the former  
case the blood flies to the head, a small vein is ruptured  
on the brain, and we know the rest. Let wives coun-  
sel their husbands, and husbands their wives, never to  
go to bed a second night, if the bowels have not been  
properly moved during the day, particularly if they feel  
heavy and drowsy. A few gentle doses of these fine  
Pills will regulate the circulation of the blood, and all  
dangerous symptoms.

Holloway's Pills are the best remedy known in the world  
for the following diseases:—

Ague	Female Irreg-	Retention of Urine
Asthma	ularities	Scrofula, or King's
Bilious Complaints	Fevers of all	Evil
Blotches on the	kinda	Sore Throats
skin	Fits	Stone and Gravel
